An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

On page 6, after line 5, insert the following: **BRIEF SUMMARY OF THE INVENTION.**

The following is an examiner's statement of reasons for allowance: The claims are allowable over the references of record in that none of the references of record teach a computer executed process stored in a computer readable medium shown in Figure 4. A user, in an environment shown in Figure 1, selects an output device (step 404, Figure 4 and Figure 5). The output device object of the selected output device and a document object are processed (step 406 of Figures 4 and 6) as a composite message by a client application process. The composite message is then transmitted to a server (step 408, Figures 4 and 7). In response to the composite message, the server generate output data and transmits the output data back to the client application such that the output device is able to generate final output (step 410, Figure 4 and 8).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
